AZALEA INDICA.

TO GROWERS OF

Forcing Bulbs, Azaleas, and Other Imported Stock.

We intend to make it convenient, satisfactory and profitable to buy your bulbs at home and through us.

THIS IS HOW

We will make you **first early** shipment of all kinds of forcing bulbs which are required for Thanksgiving and Holiday forcing. By doing this, you save about two weeks of important time over general orders placed in France or Holland.

We ship no plants or bulbs in original cases without inspection at New York or Chicago.

Price is a secondary consideration in making our foreign orders. We have long since learned that **cheap bulbs** are often the dearest in the end.

Stock bought of us will be A No. 1 Bulbs on delivery, and if not satisfactory then in every way may be returned or exchanged.

We invite the most critical inspection, and customers are not expected to keep or use any that are not as represented herewith.

We Ship From Chicago or New York.

TERMS: To customers of approved credit **60 days.** Special 3 per cent. discount for cash in 10 days from list prices only; not from "Special" quotations and excepting **Net Cash** items.

WE DO NOT WARRANT. While we always aim to have the best Seeds and Bulbs, Roots and like stock from the most reliable growers, we give no warranty expressed or implied, nor do we guarantee the Seeds, Bulbs or Plants supplied by us, nor will we be in any way responsible for the crop either as to varieties or product, nor do we guarantee the successful flowering of any Bulbs or Plants neither do we guarantee that same will be free from disease. If not accepted on these terms these goods must be returned at once and any money paid for same will be refunded. J. C. V.

Vaughan's XXX Double Nose TRUE DUTCH

Double Von Sion

Narcissus.

"Fancy" cut blooms of high grade flowers sell out while common stock goes to the dump barrel or sells at half price. Our XXX Mammoth Double Nose will produce the "Fancy" kind and will usually sell in the market at fancy prices when "regular" stock will not bring the original cost of bulbs. Our supply of these is especially grown by one of the best Daffodil firms in Holland and can be depended upon. Particularly recommended for growing in pans as illustrated in cut opposite.

FERN BALL BEFORE WATERING (dormant)
About 8 inches diameter.

This beautiful novelty is an importation from Japan and is certainly the finest addition to the Fernery yet introduced. The Ball is composed of the Japanese Island Fern Roots and Sphagnum Moss, and so constructed as to send out leaves of beautiful emerald green from every point. They grow rapidly, and make a handsome ornament for the home, conservatory or greenhouse.

DIRECTIONS FOR STARTING.—Place ball in water for 15 minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful ferns. The Fern Ball may be allowed to dry up at any time and be set away, and started again by watering as before.

NOTE We have a small supply of 5-inch Balls for immediate delivery and which we can offer at 40c. each, \$4.00 per doz.—Order at once.

LILY OF THE VALLEY.

We offer the three highest grades of Lily of the Valley Pips which the Hamburg district produces. Our "London Market" brand is the same select pip as is forced for Christmas sales by the London Growers. It is the finest selection made, producing often 10 to 12 bells and well worth the price asked for it. That "Cheap Valley" is always dear has been proven by every experienced grower. For medium and late forcing our "Premium" brand will satisfy every one. We shall deliver this stock as early as the same can be secured from the growers after maturity. Pips will be of the best quality which the season affords, carefully grown, as well as ripened and of full size. Such as with proper handling ought to give most satisfactory results. We pay our growers more than the market price to be sure of picked stock.

WE ARE EXCLUSIVE OWNERS OF THE FOLLOWING BRANDS:

"LONDON * MARKET"	"PREMIUM"	INTERNATIONAL BRAND.
----------------------	-----------	-------------------------

BRAND.

The best Pip for
Christmas Forcing.

We introduced this Select Christmas Forcing pip to the American trade under the brand "London Market" and they have given such good satisfaction that some of our envious competitors have seen fit to sell inferior stock under this name and brand. There is but one "London Market" quality and we control the selected pips of the entire crop, which is limited.

VAUGHAN'S SPECIAL IMPORT BULB PRICES.

SINGLE EARLY TULIPS.

The bulbs offered below are produced by a specialist in Holland and are all guaranteed strictly first size. Please do not compare them with the 2nd and 3rd size bulbs sometimes offered at low prices. If such stock is wanted we will import same especially for growers who desire it and on this class of bulbs we are in position to meet all competition. We do not, however, advocate for forcing the use of any but the best bulbs obtainable.

POET'S NARCISSUS. POETICUS ORNATUS.

NARCISSUS, PAPER WHITE GRANDIFLORA "STAR" BRAND, GIANT FLOWERS.

NARCISSUS

Paper White Grandiflora.

It is a well known fact that of late years this Narcissus has shown a tendency to come blind and especially so when grown from small bulbs.

In placing our contracts with French growers we are careful to secure the largest bulbs that are obtainable and the grade of these which we offer under the name of "Star" brand is the choicest stock to be had in France, and we are only able to obtain each year a limited number of them. Our experience has been that they are well worth the difference in price over the smaller grades. However, the quality which we offer under the heading of "Fancy" is a selected grade from the regular stock. As stated before, our supply of Giant Flowered is limited, and early orders are necessary to secure them.

Paperwhite, Grandiflora, "Star Brand," Giant Flowered. Per 100, \$1.15; per 1000, \$10.00.

ALBA PLENA ODORATA.

FRENCH DOUBLE VON SION.**"PARIS BRAND."**

A Narcissus specialist in France has been breeding up for several years past a pure strain of Narcissus Von Sion, and owing to the careful cultivation given them they produce blooms almost as large as the Dutch Von Sion. These cultivated French grown Von Sion have been forced by a few large eastern florists the past two years and have given good results. Under proper treatment they can be bloomed for Christmas. We consider them worthy of a trial.

These cultivated Von Sion are not to be confounded with the wild Von Sion offered by French growers and sold at low figures.

Price, per 100, \$1.50; per 1000, \$13.00.

CULTURAL DIRECTIONS.

NARCISSUS, French Grown VON SION for forcing for Christmas flowers, we would advise placing the bulbs as soon as received, in August or September, in flats outside or in cold frames. They can be brought into the house for forcing about November 15th or as late as December 1st. When brought in the flower stalks should show from 3 to 5 inches in the flats. These bulbs when so started will stand damp heat which is contrary to the habit of Dutch Von Sion."

Remember we have a Record for Early Delivery.

IMPORTANT.

Japan Lilium Longiflorum have proved a most desirable substitute for Lilium Harrisii for late or Easter flowering because of their comparative freedom from disease, as well as being unmixed with the latter variety. While they are later blooming than Harrisii, Florists should experience no trouble to bring them into flower in good time for Easter.

We are reliably informed that large quantities of Japan Lilium Longiflorum are planted this year in the Low Swampy Rice Fields of Japan and are being offered by unscrupulous dealers below cost of producing stock grown on dry and suitable land for maturing sound and healthy bulbs. Growers cannot afford to experiment with Lily bulbs of doubtful quality.

As is well-known Japan Lilium Longiflorum usually show several different types. Our Japan growers, however, have had for the past few seasons under separate cultivation two distinct types of this plant, both of which are tall growing, free blooming and with narrow leaved foliage. One of them, "EARLY MULTIFLORUM" coming into flower early and which is desirable for Easter, the other "GIGANTEUM" being a late flowering sort, and recommended for Decoration Day blooming. In booking orders for these new varieties we can give no guarantee as to their being true to name since this is the first year we have bought these separate. Our Japanese nurserymen assure us, however, they should run 90% true, further, as it is impossible to know as to how many marketable bulbs can be harvested for the coming season. We book orders subject to making prorata delivery, and in the event of shortage fill balance of order with regular Japan Longiflorum at their price, unless customers advises to the contrary.

Lilium Candidum. Regular Imported French Stock.
(Scarce.)

The old-fashioned white Lily and which is again coming into favor for cut-flowers being planted largely out of doors for summer blooming. **Per 100, \$4.50; per 1000, \$40.00.**

Lilium Candidum. "Thick Petaled."

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true "THICK PETALED" bulbs, and they have given our customers excellent satisfaction. We offer it as the best and most substantial type of Lilium Candidum.

GRAND NEW CARNATION

MRS. E. A. NELSON.

Briefly stated, the "Mrs. E. A. Nelson" possesses the following meritorious points:

SIZE—The average bloom, under ordinary culture, **exceeds three inches in diameter**. When disbudded it **reaches 3½ and 4 inches**.

COLOR—A pure, **glistening pink**, similar to that of Joost, showing equally well in day time and under artificial light.

CALYX—Strong and absolutely nonbursting.

STEM—**2 to 2½ feet**, strong and **erect**, sustaining the largest blooms. No other carnation surpasses it in this respect.

BLOOMING QUALITIES—Although a "fancy" of the highest order, it is withal an **early, profuse** and **continuous** bloomer. Scott, in its palmy days, never surpassed the "E. A. Nelson" as to continuity and quantity of blooms.

HABIT OF GROWTH—Just what the grower admires in a carnation. **Strong, clean and vigorous**, plants making no idle grass, but every shoot a flower producer. It lifts easily and suffers no setback under the most discouraging conditions, which is but another proof of its health and vigor.

KEEPING QUALITIES—As good as the best, blooms shipped from Indianapolis to Boston arriving at their destination in splendid condition. This fact is worthy of note because of the distance between the two points, necessitating three transfers.

RECORD—Scored **94 points** in Boston and **91½** in Cincinnati on March 9th.

The "Mrs. E. A. Nelson" will be ready for distribution February 1st, 1902. Orders will be filled strictly in rotation on the principle, "First come, first served."

New Abyssian Primrose.

(*Primula Verticillata Grandiflora.*)

The flowers of this variety are large, of a delightful light color and are borne on whorls, 3 to 4 to a stem. It is one of the best sorts for the house, being in bloom a long time. Pkt. (300 seeds), 25c.

Primula Forbesi, "Baby Primrose," flowers rosily lilac, free blooming, excellent for pots. The seedlings begin to bloom 3 months after sowing. 500 seeds, 25c.

Vaughan's International Primula Mixture.

This mixture is composed of the most salable colors of Single Flowering Chinese Primulas, the best whites, pinks and reds, with a sprinkling of other colors, enough to give a large variety of colors, the most important shades predominating. It contains some of the Giant sorts, some Fernleaved, some blue; also some with dark leaves and stems. We have taken special pains to make this mixture as complete as possible, and unreservedly recommend it to everyone.

VAUGHAN'S PANSIES.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. We have seen these Pansies in bloom in the originator's grounds and have therefore personal knowledge of their exceptional merit.

Pkt., 50c.; $\frac{1}{4}$ oz., \$1.50.

VARIABILIS. Salmon, buff and terra cotta shades, mixed. These shades are entirely new additions to the already large variety of colors found among Pansies. Pkt. (200 seeds), 10c.

DIANA. Pure cream color; an entirely new shade. Pkt. (200 seeds), 10c.

GIANT PHEASANT'S EYE. Pretty four-colored variety of the Giant class. Pkt. (200 seeds), 10c.

GIANT BRONZE-COLORED. Rich metallic shades, Giant flowers. Pkt. (200 seeds), 10c.

NEW GIANT MADAME PERRET. This novelty is specially distinguished from other Pansies by the plant being full and spreading with very broad and extremely dark green leaves. The straight and stiff stems it possesses cause the flowers to stand out well from the foliage. The color of the blossom ranges through all the shades of red from a pink to a fine deep purple, with an intermediate bright red edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. The extraordinary size of the flowers, which reach as much as 3 to 3 1/2 inches in diameter, make it a novelty of the first rank, and one that is sure to be sought after by lovers of Pansies.

Pkt. (200 seeds), 15c.; 2 for 25c.; $\frac{1}{4}$ oz., 50c.

EMPERRESS AUGUSTA VICTORIA. A charming new sort. Color porcelain-white with a soft blush cast. The upper petals are margined violet, while the lower petals are marked with a large purple blotch. It was awarded a silver medal at the Hamburg Horticultural Exposition.

Pkt. (250 seeds), 10c.; $\frac{1}{4}$ oz., 40c.

NEW GIANT SWEET-SCENTED. The flowers of this choice strain are of enormous size, in Spring and Fall, often measuring 4 inches across, and have a much stronger fragrance than any other Pansy.

Pkt., 25c.; 3 for 65c.

FAIRY QUEEN. As a bedder, or as a solitary plant, this is a remarkably effective new Pansy. Size very large, color pure sky-blue splendidly bordered with white, producing a distinct effect and a delicacy of color combinations which is rare. This is by all odds one of the most pleasing colors we have ever seen in Pansies, and its large size and perfect shape make it more than beautiful.

Pkt., 10c.; $\frac{1}{4}$ oz., 30c.; oz., \$1.00.

THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for twelve years; it is the best general mixture in existence and is most widely known and popular. It is used by

all the leading florists in the world. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies. Price, per oz., \$10.00; $\frac{1}{2}$ oz., \$5.00; $\frac{1}{4}$ oz., \$1.50; trade pkt., 50c.

THE CRIMSON RAMBLER.

A MOST DESIRABLE POT PLANT FOR EASTER SALES.

As a pot plant for retail sales this rose is incomparable. Its hundreds of blossoms all open together and seem to improve for at least two and even three weeks. The bright crimson color holds without fading and contrasts finely with the glossy foliage. It forces easily. We have fine dormant stock.
